The University of Iowa
Assistant/Associate Professor of Cancer Immunology
Tenure-Track Faculty Position

The Department of Microbiology and Immunology and the Holden Comprehensive Cancer Center in the Carver College of Medicine at the University of Iowa invite applications for a tenure-track faculty position in cancer immunology and immunotherapy at the Assistant or Associate Professor level. This tenure-track position includes a 12-month appointment, fringe benefits, competitive start-up package, and state-of-the-art laboratory and core facilities. The primary appointment of the faculty member will be in the Department of Microbiology and Immunology. Successful applicants will be expected to establish and maintain an extramurally funded research program and to participate in teaching activities in the Department and Center.

All applicants must have a Ph.D. and/or M.D., postdoctoral research experience in cancer immunology, and a strong record of research accomplishments. Applicants at the Associate Professor level must have an established and funded research program and demonstrate the ability to mentor and teach PhD graduate students. Although all areas of cancer immunology will be considered, we are particularly interested in individuals using cutting-edge approaches to study basic cancer immunology with a clear relevance to translational and/or therapeutic development.

This joint recruitment will synergistically enhance cancer immunology research through the strengths of the Department and the Center. The Department of Microbiology and Immunology consists of 33 primary and secondary faculty members with strengths in molecular mechanisms of microbial pathogenesis and immunity, and cancer immunobiology. To learn more about the Department of Microbiology and Immunology, please visit https://www.medicine.uiowa.edu/microbiology/. The Holden Comprehensive Cancer Center is Iowa’s only NCI-designated Comprehensive Cancer Center since 2000. The NCI designation recognizes our Center and its research scientists, physicians, and other health care professionals for their roles in advancing basic and translational cancer research that impacts on our ability to prevent, detect, and treat our patients with cancer. For more information about the Center, please visit https://cancer.uiowa.edu.

To apply for this position, please visit https://jobs.uiowa.edu/faculty/view/73885, faculty requisition #73885, where you will be asked to submit a curriculum vitae, letter of interest, and a statement of research interests. Additionally, all candidates should have three letters of recommendation sent to Search Committee #73885 at microbiology-hr@uiowa.edu.

Review of applications will begin immediately and will continue until the position is filled. Anticipated start date is flexible. Questions about the position or the department should be directed to Search Committee at microbiology-hr@uiowa.edu.

The University of Iowa is an equal opportunity/affirmative action employer. All qualified applicants are encouraged to apply and will receive consideration for employment free from discrimination on the basis of race, creed, color, national origin, age, sex, pregnancy, sexual orientation, gender identity, genetic information, religion, associational preference, status as a qualified individual with a disability, or status as a protected veteran. The University also affirms its commitment to providing equal opportunities and equal access to University facilities. Women and Minorities are encouraged to apply for all employment vacancies. For additional information on nondiscrimination policies, contact the Coordinator of Title IX and Section 504, and the ADA in The Office of Equal Opportunity and Diversity, 319/335-0705 (voice) or 319/335-0697 (text), The University of Iowa, 202 Jessup Hall, Iowa City, Iowa, 52242-1316.

Persons with disabilities may contact University Human Resources/Faculty and Staff Disability Services, (319) 335-2660 or fsds@uiowa.edu, to inquire or discuss accommodation needs.
