

The Department of Microbiology at the Icahn School of Medicine at Mount Sinai in New York City welcomes applications for tenure-track faculty positions at the rank of Assistant, Associate, or Full Professor. We seek exceptional, collaborative scientists performing research in a wide range of fields related to virology. All faculty are expected to sustain an independent, extramurally funded research program, an active publication portfolio, and an exceptional training environment for pre- and post-doctoral trainees.

You will join a dynamic department of faculty with interests in host-virus interactions, innate and adaptive immune responses to viral infections, viral transmission, disease surveillance, and vaccine design. The scientific environment of the department is enhanced by state-of-the-art technology experts developing and applying approaches including bulk and single-cell genomics, mass spectrometry-based proteomics, and crystallographic and cryo-EM-based structural approaches.

At the Icahn School of Medicine at Mount Sinai, we center our approach to education, research, clinical care and service to society on the values of diversity, inclusion, and equity. We are committed to providing an authentic and intentionally diverse, inclusive, and equitable environment for all students, residents, trainees, staff, faculty, and patients.

Candidates with a Ph.D., M.D., M.D./Ph.D., or an equivalent doctoral degree and a strong interest in virology are invited to apply. All qualified applicants will be considered regardless of race, color, national origin, age, religion, disability, veteran status, sex, sexual orientation, gender identity, or gender expression.

To apply for this position, please submit a cover letter, a one-page summary of research interests, and a CV to the co-Chairs of the search committee, Dr. Ana Fernandez-Sesma, at ana.sesma@mssm.edu and Dr. Jeffrey Johnson, at jeffrey.johnson@mssm.edu.
